Editor, A. J. Gironda, W2JE

SEPTEMBER 1969

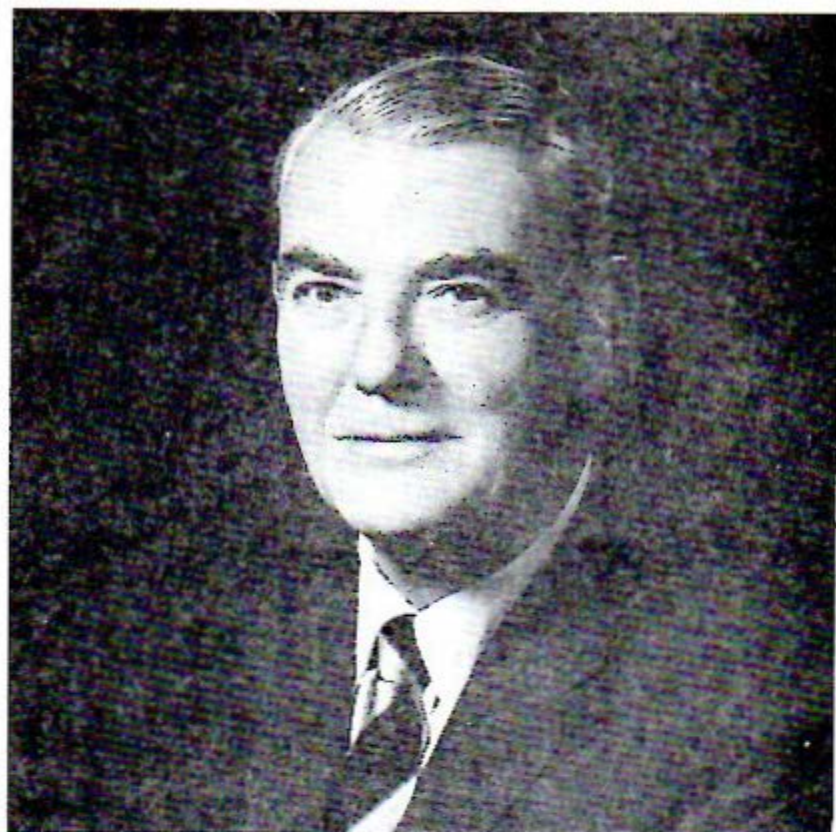

During the year we have lost two prominent QCWA members, Herbert Hoover Jr and Dr. William L. Wheeler W2ILO. Elsewhere we have a report on W6ZH, and here I would like to tell you about Doc Wheeler. W2ILO graduated Colgate University, and Columbia University College of Physicians and Surgeons. He was first licensed in 1919 as 2LK, his other calls were 2COB, and W2ILO. A charter member of QCWA, and very active on the air. Doc Wheeler had gone to Africa to work and assist the people there, therefore it was a shock to his many friends in QCWA when notice of his death was given.

W6ZH and W2ILO will long be remembered in QCWA for their contribution to the art of Amateur Radio and the assistance they had given to Amateur Radio operators in the United States.

W2ILO

FROM THE GENERAL MANAGER: We now have our first overseas chapter. VK2AND of Australia has done a fine job of recruiting the required number of members, sent in a petition and now are in business. We really are getting international now. We expect more chapters from overseas as time goes on.....Who was our first XYL to join QCWA? None other than Mrs. Helen Schmock nee Cloutier, W8GJX QCWA #793 August 1954....OH YES JUST A REMINDER.. Your call and address will be listed in the 1970-1971 QCWA Yearbook as it appears on this newsletter. If there are any changes in address, calls etc., please let us know before we go to press, probably around March 1, 1970. The possibility is that the yearbook may be mailed sometime in June, therefore if you have a summer address, lets have it and it will be mailed to that address...PLEASE KEEP THIS IN MIND.....W4YK reports...that a young sage WA4ILS said "There's only one trouble in resisting temptation - it may never come again - old salesmen never die - they just get out of commission".....and Judge Ray Whannel ex W1PHP has moved to Rochester Ill., and his new call is W9LIU ...ON PAGE 13 of the QCWA June issue a typographo was comitted, IT SHOULD HAVE READ "CHECK YOUR ID CARD, IF IT EXPIRES DEC 31, 1968" instead of 1969. .. so check your cards and send in your dues..... WE NEED A CHAPTER TO SPONSOR OUR 1970 QSO PARTY, ANY VOLUNTEERS? LET ME KNOW SOON. ..we now have both the red stamps and white stamps The white stamps are printed in blue, these are for regular members, cost \$1.00 for 500. The Gold Stamps for Life Members cost \$1.50 for 500. Pins now cost \$3.00 each and the decals are still 25c each.....make a note of these prices... We have been asked about QCWA QSL cards, QCWA does not print QSL cards, however, we have made an arrangement with a printer to make up cards for QCWA members. Those wishing the QCWA emblem on their cards as per sample on another page, write to W2JE or direct to Girigan Print, Mamaroneck, N. Y.. for prices etc. The colors are red and blue at present with black QSO info on reverse side. ...Remember: "One ship sails East, the Other West On the self same winds that blow. It's the set of the sails, that determine which way they go." So set your sails, plan ur direction, the direction that QCWA should go..

HERBERT HOOVER JR
1903 1969

We regret to report the death of our Honorary member of QCWA. A consulting engineer with a long and active career with the United States Government. He was the son of our 31st President of the United States, Herbert Hoover. A mining engineer His activities are too numerous to mention, but it is quite extensive all over the world. His home is in Pasadena Calif., Past president of ARRL and very active in Amateur activities. A graduate of Stanford U., MBA at Harvard. Honorary degrees from Rutgers, Temple U., USC, and Claremont Men's College. He leaves his wife Margaret, and three children, Margaret, Herbert III, and Joan.

THE CANDIDATES 1970-1972

Clarence Seid, W2KW/K2KW/KV4AB, President QCWA, Active on 20/80 Phone & CW. Charter, Life member of QCWA, ARRL AFCEA, VWOA. First ham ticket 1923. Former commercial operator with United Fruit, 1929. Winters in Virgin Isles, as KV4AB. Attorney at Law, primary interest in real estate field. Originator of "Radio Hills" N & S

VICE PRESIDENT

Frank A. Gunther W2ALS, vice president QCWA, works all bands, and active on CW. A very busy man what with being Vice Pres., Radio Engineering Labs., Executive Vice Pres., Dynamics Corp., of America, Pres. Armstrong Memorial Research Foundation, Life Member QCWA, Charter Life Member ARRL, Fellow of the Institute of Electrical and Electronics Engineers, Past Pres. and Fellow of the Radio Club of America. Past National Pres and permanent Director of the Armed Forces Communications and Electronics and member of the National Industry Advisory Committee of the FCC.

TREASURER

Mark Devaney, W2HQR, Vice Pres. National Distillers of America, and comptroller of the company. Very active on SSB all bands, member of ARRL and QCWA.

SECRETARY

David Talley W2PF, active on SSB find him mostly on 14.233Kcs Life member QCWA, member ARRL, AFCEA and many other clubs.

BOARD OF DIRECTORS

Jack Anderson, W1FDH, director QCWA, member of ARRL IEEE, and very active on SSB. President of Kaman Corp., near Hartford Conn.

George Bailey, W2KH, Director QCWA, life member of QCWA, member of IEEE, AFCEA, ARRL, and many others. Retired Executive secretary of the IEEE, Past Pres. of ARRL, presently consultant to Armed Forces on Communications. First Licensed 1927 as W1KH, active on 80 thru 6 meter Phone and CW.

Art Miligan W8ALP, Director QCWA, and life member. active on all bands, SSB and CW. Restaurant owner

in Lambertsville, Mich., member of ARRL, and other organizations in radio.

Harry S. Gartsman, W6ATC, Member QCWA, ARRL, MARS, Palisades Amateur Radio Club, RSGB, IARU, AFCEA and others. Harry travels quite extensively to Washington DC and New York and to Europe once a year. Presently Pres. of Alvaradio Industries, Standard Electronics, Inc. Also of ANTAC Industries of Santa Monica, Calif. Amateur activity mostly on QCWA nets and other skeds overseas. 1st license in 1934 as W9OFZ.

H. H. Robinson, W3RE, long time member of QCWA, First licensed in 1919 as 2QR, East Coast rep for Gonset Mfg Co., for many years. Same job for the past 13 years with REL consultant in Washington, DC. Co-founder and past chairman of the Washington Chapter. and holds the 50 years licensed in Ham Radio award. Member of IEEE, AFCEA, VWOA, OOTC, AWA, AFA, ARRL and RACES. Active on all bands 80m thru 432MHz.

H. W. Sears W5NC formerly K5JLQ, first licensed in 1914 9CFV. Held W9AFD, W6AER, W5ADH, and PA0has Went to sea with the Munson Line then to United Fruit co., Currently dabbling in ranching (Holly Ranch) in Crockett Texas. some mining, marine activities along with various hobbies. Member, OOTC, Life member QCWA, ARRL, Society of Explorers Sheriffs Posse, American Angus Assn., and Houston Radio Club.

J. Albert Stobbe, W2WZ, director QCWA, charter member, Licensed 1925 2WZ and has kept that call throughout. Works all bands with a cool KW. Member ARRL, and others. He is a lawyer, and consultant.

Dr. A. L. Walsh, W2BW, director QCWA, charter member, first licensed in 1912 2SP, member of the N.Y. Radio Club, ARRL, AFCEA, ROWH, Works all bands CW and phone. He also was former director of the Hudson Division ARRL, He is a dentist with offices on Madison Ave., NYC.

CHAPTER NEWS

SAN ANTONIO: W5LPO reports that the chapter members pulled off a neat bit of Old-timerism during the recent ARRL FD blast. The chapter operated the 20 mtr CW position for the San Antonio radio club. SARC members operated the other positions. After a wise and crafty bit of footwork by W5EJT in locating our layout next door to the beer kegs - we proceeded to sock it to 'em. Our position made more contacts than all the other SARC together. The QCWA literally showed the "Young Squirts" how its done., said W5LPO. The SARC is now well aware of the old timers know how! Many of the QCWA members showed up to pound brass - but full time operators were Roy Albright, W5EYB, West Gulf ARRL director; Gene Jank, W5EJT, Dean Davis W5BGE, Les Essington, W5BE, and John Shean, W5LPO. W5LPO asks for suggested programs for chapter meetings, we could have a column "Here's an activity idea" and also one for "Tricks for Recruiting" Send in your suggestions.

DELAWARE VALLEY: The Spring meeting held in July had 84 in attendance, and were entertained by various members. The "Hamfest" was enjoyed by all. Ed Raser W2ZI is now home recuperating and is back on the air and wishes to thank the many hundreds who sent him cards. The next meeting of the chapter will be on September 6th at the Buck Hotel, Feasterville, Pa., with pictures of the Apollo shots by RCA.

N. CALIFORNIA: The chapters annual picnic will be held on Sunday, Sept 14, 1969 at the Sonoma Golf and Country Club, Sonoma. 25 tables will be reserved at a \$1 each and each table seats 6 people. Each one will bring their own picnic lunch. The next directors meeting will be held Oct 3rd. Sunday nets are; 3.950Kc AM 9AM W6AUC; SSB 3.907 10AM W6BYS; CW-3.788 11AM K6CA; CW 3.788 11:30 AM slow- K6CA..

NORTHWEST: The chapter reports that J. Peele W7LT is now out of the Marine Hospital and back home. The annual meeting held in Vancouver, BC., on June 7th and 8th was a huge success with 174 attending which is a record. The committee headed by VE7LL

planned and hosted the most wonderful meals, entertainment, highlighted by a boat ride to Granite Falls where the banquet was held. Election of officers for 1969-1970 installed - VE7LL Chairman W7QA vice chairman; W7PN Secy; following the banquet a timely address was given by Asst Professor Dr. James F. Gower Asst Professor of Radio Astronomy at the Univ. of British Columbia. Also announced that the 1970 annual meeting is to be held in Portland.

HOUSTON: The chapter meets every third Thursday at 11:30AM-1:30PM at the Geo Club. On the air meetings every Sunday 8:30AM 7245Kc. Approximately 30 members made it to Crockett this year and it was especially relaxing and enjoyable for all. W5NC says it would have been difficult to have gotten a finer and more congenial crew together.

DALLAS: The chapter put on a big one the night of June 19, a free meal there being the reason that W5NC could not attend Houston dinner. W5NC was given "5 minutes" by W5HT to say a few words. Big D really has a big gang and is really loaded with live wires who make you feel welcome. Thats QCWA.

CENTRAL NEWYORK: A special meeting of the Executive Committee was held on June 27th at the Chicken Inn, Vestal, N.Y., for the purpose of firming plans for their annual Banquet and Meeting and election of officers for 1969-70. This meeting will be held at the newly renovated Hotel Oneida, Oneida N. Y. on Nov 1, 1969. Tickets \$5.00 per person. W2APE and W2NFU attended the reorganization dinner of the Finger Lakes Chapter held at Tully, N. Y. on May 29. W2AXX Chairman of the Affairs committee is open to suggestions as to a speaker for their annual meeting. The chapter meets each Sunday morning on 3917Kc at 10:30AM,

DALLAS: (Again) The present officers of the chapter were re elected to another year term. It was decided that the Sept and Dec meetings will be combined and held on November 16 in connection with the Texoma "Hamarama" which is set for Nov 14, 15 & 16 at Lake Texoma State Lodge near Kingston Okla. W5III promised some "surprise" entertainment for the Texoma breakfast.

DAYTON-CINCINATI - The chapter held their annual picnic at Jack Gray's Museum of Wireless History and an excellent time was had by all. The weather fortunately was great. Attendance totaled 34,17 were members and rest XYL's and children. They now have a total of 109 members in the chapter. Jack Gray is doing an excellent job of operating the museum and as usual, he has added and put in shape quite a few new old pieces of gear, making browsing thru the museum a pleasant experience. It certainly brings back a lot of pleasant memories to the old spark gang.

NEWS and such: -

W6IL Ralph Cabanillas sends in this little billie deaux "I,m Fine"

There is nothing whatever the matter with me,
I'm just as healthy as can be, I have
arthritis in back and knees.
And when I talk, I talk with wheeze.

My pulse is weak, my blood is thin,
But L'm awfully good for the shape I'm in:
My teeth eventually had to come out, and
my diet I hate to think about.
I'm overweight and I can't get thin.
My appetitie is sure to win.
Byt I'm in awfully good for the shape I'm in;

Arch supports I have for my feet
Or I wouldn't be able to walk on the street,
Sleep is denied me night after night, and
every morning I'm a sight.
My memory is failing, my head's in a spin,
But I'm awfully good for the shape I'm in:

The moral is this: as the tale we unfold,
That for all those who are growing old,
It's better to say "I'M FINE" with a grin
Than to let folks know the shape I'm in.

Leon Schultz
1931-1969

Chuck W5NT and friend Paul

Ken W1PS and Eunice W1MPP of
the New England Chapter. We
finally got a picture of these
old time QCWA members.

POWA NORTHWEST CHAPTER A UNICAL MEETING
GRANITE FALLS LODGE JUNE 1988

CANTON: The 27th Dinner-Meeting was held May 24th at Bonvechi's South of New Philadelphia, Ohio, with 49 present. Many of the chapter members were active working the nets during the recent floods operating portable units, in the flooded area. The Ohio QCWA net frq of 3988Kc is inactive until Sept. Some are getting on just to keep in touch 12:30PM every Sunday.

SAN DIEGO: The chapter held a business meeting on Aug 18, at the Hilton Inn where the convention will be held on Oct 17-19 and a committee was chosen for the QCWA booth& Sunday morning breakfast. They expect a vry good turn out. Romeo is busy using up the red stamps on his QSL cards.

CITRUS CHAPTER: Bill W4PI reports that the Central Florida chapter changed its name to the "CITRUS" chapter. Bill also ses he went thru 5 years of WW2 as a Naval Aviator/Radar Officer without a scratch has driven over lethal highways for over 40 years without an accident, but he had his first accident at his daughters house in Boston, slipped down the stairs on his back., so he got slowed down, thats the reason the affairs of the Citrus chapter have suffered a bit. June 28th they had a real fine charter meeting about 20 in attendance, enough to iron out many questions and policies. Also, they settled on their NET time and frequency. Each Saturday 1 PM EDT on 7263Kcs. They now have 40 members on their roster.

Just a thought:- How is it possible to expect the bad operators to take advice when they will not as much as take a warning?

Also; Heed this:- Knowledge and timber shouldn't be used much until they are seasoned.(Oliver W. Holmes

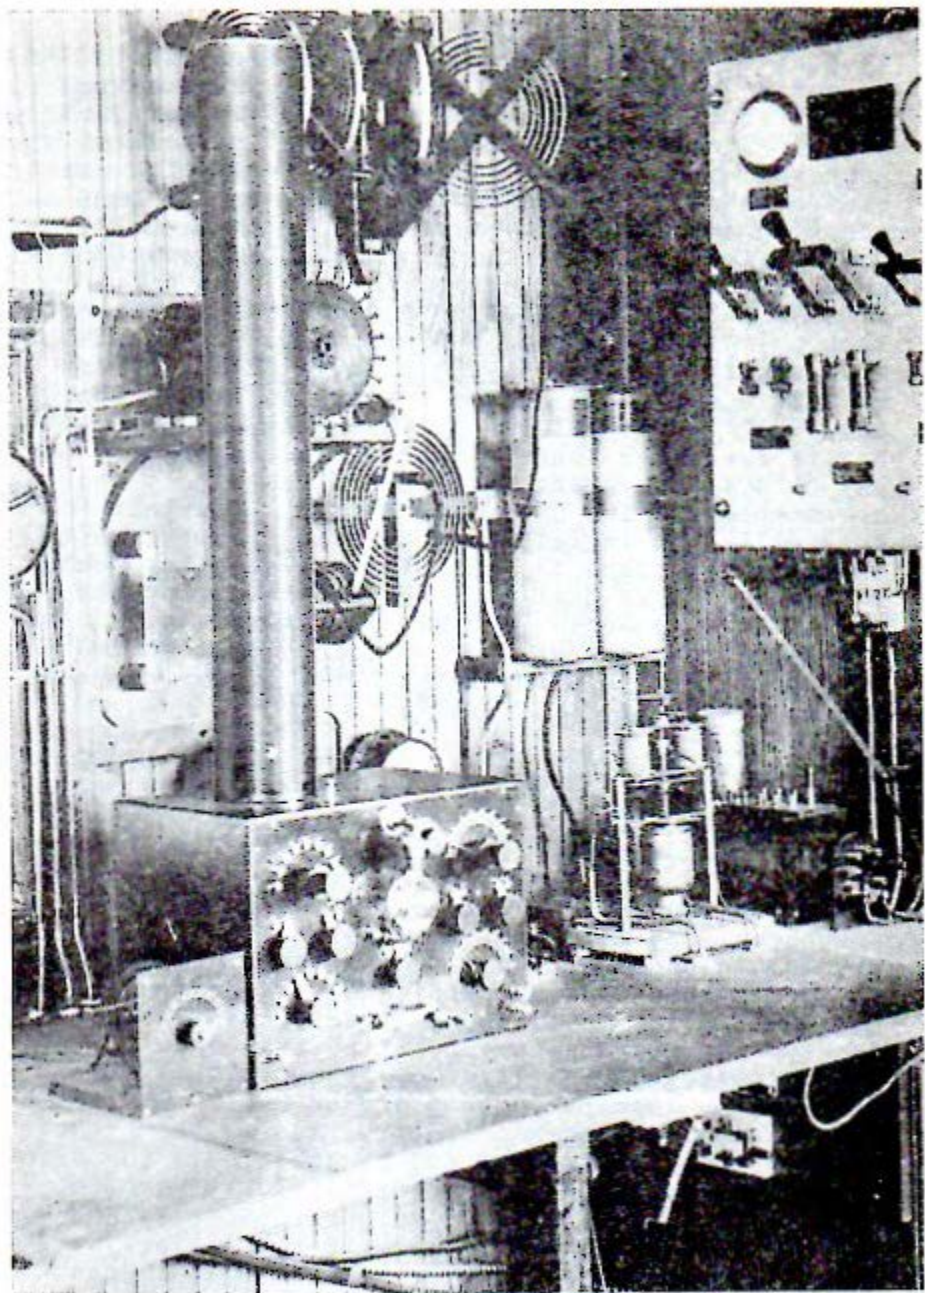

Shakespeare in his "Hamlet" wrote of Polonius, who traveled much and never had much time for his children. But he wrote a beautiful letter to his son. Pick up Hamlet and read what Polonius wrote to his son. You will open your eyes.

LETTERS

CMDR L. B. Ensey, USN Ret Writes: I have only recently joined QCWA, so the June, 1969 News is the first thing that I have received from Hqs. Let me congratulate you for taking a small amount of your space in the news bulletin to remind the members of what is happening in our country. I am speaking about the very fine article on page 11, and the last verse of the Star Spangled Banner on page 17. It is a pity, that in these days of blatant subversion, that more organizations cannot take a little more time and effort to help preserve the things that have made this great country of ours a wonderful place in which to live. Lets hope that in the future, that you will be able to devote even more space to patriotic themes. If, by any chance, there are any secret communists who are members of the QCWA, you must realize that they will send in letters denouncing you for wasting time and space in this QCWA bulletin for such things as I have mentioned above. Whether or not any of your members are secret communists, I don't pretend to know, however, they seem to be everywhere else, in our Government, in our churches and in our colleges. (W60P)

(Happily we have not received any comments other than praise for our articles mentioned above, but in line with W60P's remarks I will write what Cicero said many many years ago -Ed)

"A nation can survive its fools, and even the ambitious. But it cannot survive treason from within. An enemy at the gates is less formidable, for he is known and he carries his banners openly. But the traitor moves among those within the gate freely, his sly whispers rustling thru the alleys, heard in the very halls of government itself. For the traitor appears no traitor; he speaks in the accents familiar to his victims, and he wears their face and their garments, and he appeals to the baseness that lies deep in the hearts of all men. He rots the soul of a nation; he works secretly and unknown in the night to undermine the pillars of a city; he infects the body politic so that it can no longer resist. A murderer is less to be feared.

LETTERS

Art Kunst W3WM got a new 2 letter call so he dropped W3LNE, but he also queries, "What happened to the Pittsburg Chapter" yes what did happend to this fine chapter. Would like to hear from the new secretary about it.

From W2YEJ:- Six errors of Life.

Cicero, the great Roman orator and philosopher, set forth what he considered to be the six most drastic mistakes made by men in the course of : lives. Here they are - and here we are, still making them:

1. The delusion that individual advancement is made by crushing others.
 2. The tendency to worry about things that cannot be changed or corrected.
 3. Insisting that a thing is impossible because we cannot do it ourselves.
 4. Neglecting development and refinement of the mind, and not acquiring the habit of reading and study.
 5. Attempting to compel others to believe and live as we do.
- (Wothoppen to #6 W2YEJ)

This is what the QCWA QSL card looks like; The OM at the key is printed in red, the call sign and address in blue. QSL info in black. If interested write to W2JE about prices etc.

MY GET-UP AND GO HAS GOT UP AND WENT!

How do i know my youth is all spent?

Well, my get-up and go has got up and went.

But in spite of it all I am able to grin.

When I recall where my get-up has been.

Old age is golden so I have heard it said...

But sometimes I wonder when I get into bed.

With my ears in a drawer, and my teeth in a cup

My eyes on a table until I wake up.

Ere sleep dims my eyes, I say to myself,

Is there anything else I should lay on the shelf

And I'm happy to say as I close my door

My friends are the same, perhaps even more.

When I was young my slippers were red

I could kick up my heels right over my head.

When I grew older my slippers were blue

But I still could dance the whole night thru,

But now I am old, my slippers are black

I walk to the store and puff my way back.

The reason I know my youth is all spent,

My get-up and go has got up and went.

But really I don't mind, when I think with a grin

All the grand places my get-up has been,

Since I have retired from life's competition.

I busy myself with complete repetition.

I get up each morning and dust off my wits

Pick up the paper and read the Obits.

If my name is missing I know I'm not dead

So I get a good breakfast and go hamming

instead!

AMATEUR RADIO, WHAT IS IT?

To some it may be that fellow next door or down the street with "that windmill thing in back" and his yard and roof strung with a spiderweb network of wires to attract lightning or for the birds to sit on, but this is not all really!

Amateur radio has a history of approximately 70 years and much like 'Topsy' just grew, but much more than that - it grew with it's country's blessing for it provided much benefit to man mankind all over the world as it grew. An amateur radio operator in no matter what part of the world, is licensed by his government to pursue radio communication as a hobby and is allowed to continue in his hobby because of the side benefits to his country arising from his thirst for knowledge and his altruistic desire to help when he is most urgently needed.

The amateur has provided his country with a tremendous reservoir of persons having advanced technical know how which has been useful to it in time of war, flood, hurricane, earthquake, fire or tornado. Thru this his country has been furnished communication when all other such resources have failed and it has helped to bring relief quickly when needed in the wake of disaster.

An amateur will sit by the hour at his microphone or key and put people in touch with loved ones far across the sea or stationed at some remote outpost at the earths poles under the darkness of month long winter night. He receives no pay for his services but does it gladly and proudly, perhaps glorying just a bit in the knowledge that he is just a bit special and can do something that others can't. His pride is justifiable in the fact that he is self taught and has had to acquire knowledge rivaling the best professionals in order for his government to issue him that precious license.

Can we forgive him then, if he creates just a bit of TVI? Perhaps just a neighborly visit or phone call would be all that is needed to clear it up anyway. Why not make it a friendly visit tho at

your first opportunity - perhaps he can demonstrate to you, what amateur radio is all about or put you in touch with one of your own far away loved ones. Perhaps, if you are about to retire, you could make good use of a hobby such as his! Nothing is more music to an amateur's ears than "How do you get to be an amateur, will you help me to become one?" Just try it sometime!

By Ward Jensen WØTLE

Ray W1VW writes to tell us to get things right. "I can see from the June QCWA NEWS that you like the Hertz symbols as much as I do. Since we are stuck with them lets get them right. All thru the NEWS they are wrong. I do commercial frequency measuring so more or less have to use them.

H is always a capital, z, never, M and G are capital but hams dont use GHZ much. k is small letter. Thus:- cycles per second is Hz

Kilocycles per second is kHz

Megacycles per second is MHz.

There are lots more but not used by hams. Don't feel too bad about this. It is common even in the technical journals. Take a look at the QOTC Spark Gap Times."

R. W. Woodward W1VW/K4EW #1022

Well fellow member Ray of QCWA, many thanks for your timely lesson on these &c%#\$@=(kHz etc., now I must try to remember them and use them properly in our news items. But will I learn? time will tell.

Letter from W5AJ who states they had about 300 at the Sunday QCWA breakfast at the Convention in Amarillo Texas. They picked two new members and lo and behold they signed up the speaker at the breakfast Ray Bryan signed their application.

SOME CORRECTIONS: See June News W6SNY should be W6NSY - Under life members see WØIG correct to read WØIQ and his name is Joseph A. Dieteman.

ODE TO THE QUARTER CENTURY
WIRELESS ASSOCIATION

Six guy's met on ten one day,
QCWA started this way,
They had a gathering, and a feed,
To formulate plan's on what they'd need.

The roll is grow'in more each day,
In the group called QCWA,
The fee is small, licensed too,
Twenty Five years, is'nt this true?

Their emblem show's a small old guy,
Whisker's and a Key, lightning flashed sky,
Sending out signal's, a long time ago,
You might hear em now on your radio!

Thing's have changed, from day's gone bye,
We're still getting signal's from the sky,
And from out there in a thing, they call space,
Picture's and signal's are common-place.

A hundred years from now, we hope to say,
That we're still a member of the QCWA,
A'bang'en a key, using mode A-1,
A'wing'en our way, toward the setting sun.

22nd ANNUAL QCWA DINNER

The QCWA dinner for 1969 will be held in the Engineers Club 32 West 40th St., New York City, on October 24th, 1969. We will assemble at 5:30 and dinner will be served at 6:00. Please send in your reservations with payment of \$8.50 per person for the dinner. The bar will be opened at 6PM. 25 members of QCWA are eligible for our 50 Years Licensed in Amateur Radio award and will be presented at this time. Send check to Q. C. W.A. Box 394, Mamaroneck, NY 10543.

Some more chapter news;

MID-CONTINENT: Many of the mid continent chapter members were present at the Des Moines ARRL Convention. Pictures were sent in but were of the COLOR kind and they just dont print very good so cant use them. W0AZ Harold Bourell, was presented a plaque by the Mid-Continent Chapter and Kansas City DX Club on his retirement as Engineer in Charge of the KC District of the F.C.C. The picture was taken by W0HRG.
